· Implemented responsive design for seamless cross-device compatibility.

RELEVANT COURSES

Core Courses	**Other Courses**
Full Stack Web Development	About Generative AI
Introduction to Linux	Ethics of AI
Prompt Design in Vertex AI	Elements of AI

POSITION OF RESPONSIBILITY

MahilAi Pesu Club February 2025 - Present
Web Developer *India*

· Assisted in developing and hosting websites for Hackathons, ensuring smooth execution of events.
· Took on additional responsibilities due to the web team's limited experience, guiding them in technical aspects.
· Oversaw website development and maintenance, despite holding a web developer role, due to advanced expertise.
· Provided mentorship and support to senior web developers, contributing to the club's technical growth.

EXTRA-CIRRUCULAR

Helped organize hackathons in college, contributing to event planning, logistics, and execution.

Passionate about cybersecurity, working on Wi-Fi security and penetration testing projects.

Exploring Raspberry Pi projects, integrating GPIO sensors for real-world applications.

Active Linux enthusiast, exploring different distributions, including Kali and SUSE.

Member of the college Table Tennis team, representing the university in competitions.
